ABOUT US

For us, quality is not a slogan we write. It is a way of working: carefully chosen materials, execution that respects the plan, and a handover that needs no excuses.

Our story

Super Quality was founded together with Najem Al-Taif for Construction and Urban Development. The two share one management and one body of experience on construction projects across the Kingdom, from Diriyah and Riyadh to Makkah, Taif and Jazan.

We work with developers and main contractors on concrete structures and finishing, and carry that experience into interior decoration, with a site team that keeps to the drawings and to safety and quality standards at every stage.

What sets us apart is simple: we say what we will build, we build what we said, and we hand over on time.

Sister company

Najem Al-Taif for Construction and Urban Development

01

Our vision

For Super Quality to be the first name chosen when quality is a condition, not an option, in contracting and finishing across the Kingdom, and to contribute to Vision 2030 projects with work that matches their ambition.

02

Our mission

To deliver concrete structures, finishing and interior decoration with precision and commitment, through a qualified site team, carefully chosen materials and continuous supervision at every stage, respecting schedules and safety standards, so that our clients and partners receive work they can build their trust on.

OUR COMMITMENTS

Our values on every project

01

Quality first

No compromise on good materials or on doing the work right.

02

Respect for time

A clear schedule from day one, and we keep to it.

03

Full transparency

You know what will be built, with which material, at what cost.

04

Safety

Organised sites, and safety standards applied every day.

SERVICES

Everything a project needs to be complete

01

Concrete structures

Concrete frames from foundations to roof slabs, built to the structural drawings and to quality and safety standards.

02

Interior finishing

Complete finishing of interior spaces, from groundwork to the final touch.

03

Interior décor

Designs that reflect your taste, built exactly as they were drawn.

04

Ceilings & gypsum

Suspended ceilings and gypsum cladding with clean lines and considered lighting.

05

Paint & wall finishes

Colours and wall finishes applied with care, made to last.

06

Flooring

All types of flooring, laid true and level with even joints.

PROCESS

Four clear steps from idea to handover

01

Visit & understand

We visit the site, listen to what you want, and measure everything before we propose anything.

02

Design & quotation

A clear concept and a detailed quotation, with no vague line items.

03

Build & supervise

Our team works to the plan, with continuous supervision at every stage.

04

Handover & aftercare

We hand the space over clean and ready, and stay with you afterwards.

PROJECTS

Projects we are proud to be part of

Projects in Diriyah, Riyadh, Makkah, Taif and Jazan, delivered with leading developers and main contractors, alongside Najem Al-Taif.

01 Six Senses

02 Faena
